

Karem Aranda

Full Stack Developer

+52 33 3227 5031 • karem.aranda23@gmail.com • portafolio-karem-aranda.vercel.app • github.com/Karem-Aranda

PROFILE

Full Stack Developer experienced in building responsive, user-centered web applications with React, TypeScript, and JavaScript. Skilled in REST API integration, authentication, SQL, and real-time data with Firebase and Firestore, plus automated testing (Playwright) and AI-assisted development (Claude, Codex). Currently completing a cybersecurity certification (expected Dec 2026), with strong problem-solving skills and a results-driven mindset.

WORK EXPERIENCE

Web Developer, Freelance Project – Ninjin Siete

Jan 2026 - March 2026

Developed a responsive landing page using **JavaScript** and **CSS**, focused on clearly and effectively showcasing the company's services and products. Implemented semantic **HTML** and a mobile-first design to ensure an optimal user experience across devices.

Full Stack and Web Developer - Achoq Software

May 2025 - Jan 2026

Developed a kanji-learning full stack web app using **Astro** and **Tailwind CSS** that generates video transcriptions, helping users follow spoken content and study characters more easily. Implemented the complete transcription and learning flow, from content ingestion to interactive study views. Built real-time content management, secure user authentication, and automated learning pages using **Firebase** and **Firestore**.

Movie Challenge - Laboratoria

June - July 2024

Developed a movie application where users can filter by multiple parameters, such as release year, popularity, and genre. Used technologies such as **React**, **TypeScript**, and **SASS** to build an intuitive, functional platform, providing a user-friendly experience for finding movies quickly.

CERTIFICATIONS

Cybersecurity Certification — In Progress

Completion: Dec 2026

Currently completing a cybersecurity certification program. Badges earned to date: Networking Basics and Introduction to Cybersecurity.

EDUCATION

Laboratoria

Feb 2024 - Aug 2024

Completed an intensive web development bootcamp focused on HTML, CSS, JS, React, TS, and Git/GitHub. Built responsive web applications while strengthening teamwork, problem-solving, self-directed learning, and technical communication skills.

Bachelor's Degree in International Trade

Jan 2020 - Dec 2022

Universidad de las Californias — Tijuana

SKILLS

Technical Skills: JavaScript • TypeScript • React • Astro • SQL • Tailwind CSS • REST API Integration • Firebase/Firestore • Full Stack Development • Playwright (Automated Testing) • AI-Assisted Development (Claude, Codex) • Git/GitHub • Figma • Cybersecurity Fundamentals • Networking Basics • Packet Tracer

Soft Skills: Team Collaboration • Effective Communication • Attention to Detail • Problem-Solving • Learning Agility
